Comments: ^{25%} The hamlet size is too limited. 50% of the hamlet contains wetlands and is unbuildable. We are in favor of high quality efficient development in-keeping with some architectural standards. Development is going to happen. I would like to see the Town make smart decisions about where businesses go not just say NIMBY. The Hwy F and other main corridors make sense for future development.

Comments: I do not want to see this area turn into Waukesha County, but limited development would help locals to not have to commute long distances to shop or work. Also, agriculture move to industrial scale is not in the best interest of those who live and work in the area. Solar farms would be preferred over CAFO's.
